

AMS Presents

Beverage Merchandisers

Dependability, Flexibility, Variety.

AVAILABLE IN BOTH 35" & 39" WIDTHS!

- When **AMS** started in business we were all about snacks. While we still offer snacks and cold food, we have been offering beverage vendors for years. All our merchandisers come with the patented **Sensit**[®] guaranteed delivery system. All merchandise is enticingly visible for customer selection. Our vendors have 1/2 plus hp refrigeration with heated triple-pane glass, and they're health and safety compliant. All **AMS** vendors have interchangeable parts so you keep a lower parts inventory. It means you can reconfigure to accommodate your changing market. You'll like offering a variety to your customers, too. They can have all-beverage, snack and beverage, cold food and beverage, a dairy vendor for the health conscious, and you can even offer stand-up-retort-pouch vending. Call us, and we'll put you in touch with your local **AMS** representative.

This vendor and/or certain of its components are covered by one or more of the following U.S. patents: 6,041,962; 6,145,699; 6,202,888; 6,384,402; 6,794,634 and other U.S. and international patents pending.
